To acces the online resources (databases, journals, etc.) of the Central Library, a VPN (Virtual Private Network) can be used.

If you are an employee of the University, and you have an account in the Groupwise email system, then you can use this, to connect to the VPN service. The description of the service and setup guides can be found on the University's IT department page: http://semmelweis.hu/informatika/egyeb-szolgaltatasok/eroforrasok-tavoli-elerese/

If you are a student of the the University, you can use the VPN service managed by the library. To access it, please check out the Services menu, or click on this link: VPN access for students

The library VPN is currently not started in your computer. (IP:37.76.18.152)

The student VPN acces can be used to open the databes and journals of the university from home. This access requires a Semmelweis University Neptun code or SEKA ID. To use this access, please log in to the webpage with your Neptun code / SEKA ID, then select the Request Access tab.

You can read how to setup the VPN access on the below link:
More information...

Attention!
If you are an employee of Semmelweis University, please use the VPN service of IT department

Attention! The newest version of MAC OSX and IOS doesnt support PPTP protocoll anymore, please use L2TP/IPsec instead, and connect to the 193.6.208.35 server. The pre shared key needed for this can be found in the Request Access tab also.
